At **Forevermark Cabinetry**, our company beliefs are simple. We provide affordable, quality wood cabinetry. Cabinetry that is functional and stylish. Cabinetry that is reliable and durable enough for our families. Cabinetry that we use in our own homes every day.

Forevermark Cabinetry features wood construction, superior hardware, and durable paints and finishes. We carefully design each distinctive style to make sure your kitchen stands out. In addition to independently tested air emissions approval on all Forevermark Cabinetry, we offer select products with waterborne UV finishes furnished by Sherwin-Williams®.

You don't have to settle for an ordinary kitchen.  
With Forevermark Cabinetry, your kitchen can be...

*...everything you didn't know it could be.*

**cabinetry™**

Forevermark Cabinetry proudly manufactures select products incorporating the use of waterborne UV coatings furnished by Sherwin-Williams®.

The benefits of these waterborne UV coatings include:

- 2.3 lbs./gal VOC or less
- Water-reducible (liquid coatings)
- Formaldehyde hazard free
- Lead and chromate hazard free
- HAPS free
- Superior scratch resistance
- Reduction of environmental impact

The use of waterborne UV finishes is a part of Forevermark Cabinetry's ongoing commitment to sustainability. We know there's nothing more important than the well-being of your family, so you can truly breathe easier when you choose Forevermark Cabinetry.

Forevermark Cabinetry is proud to offer select products that are Greenguard® certified.

GREENGUARD Certification strives to protect human health and quality of life by establishing standards and certification programs to reduce exposure to chemicals and to improve indoor air quality. The GREENGUARD standards are among the most stringent indoor air quality standards in the world, and they are based on available standards and guidelines from national and international public health agencies.

The GREENGUARD Certification mark communicates that representative samples of a product have undergone rigorous scientific testing to meet some of the world's most stringent chemical emissions requirements. This certification helps reduce indoor air pollution and the potential for airborne chemical exposure.

Products with GREENGUARD Certification contribute to the creation of more healthful indoor environments. GREENGUARD Certified products are recognized, referenced or preferred by more than 450 federal purchasers, retailers, green building rating tools and building codes around the world.

Improving the quality of indoor air is vital for human health. The United States Environmental Protection Agency names source control as the best strategy to reduce indoor air pollution and limit chemical exposure. Source control can include selecting products that have been GREENGUARD Certified for low chemical emissions. These products have been tested for more than 10,000 chemicals to ensure they are safe and healthy for indoor environments.

*Breathe Easier* by selecting a  
Forevermark Cabinetry Greenguard certified  
product for your home.

## Warranty

Forevermark Cabinetry has a two to five year limited warranty on cabinetry parts and hardware, guaranteeing your cabinetry to be free from material or workmanship related defects under normal use to the original owner. For more information, ask a representative for complete details.

All rights reserved. Subject to change without notice. Photographs for reference only, color shown may differ slightly from actual color.

## Sustainability

Forevermark Cabinetry is fully committed to ensuring that our products are environmentally friendly. All Forevermark Cabinetry products are independently tested to meet or surpass all California Air Resources Board standards for emissions.

We also offer select products that feature waterborne UV finishes furnished by Sherwin-Williams®.

## Durability

Forevermark Cabinetry is proud to offer assembled cabinets that are Kitchen Cabinet Manufacturers Association certified.

KCMA certified cabinets are recognized in the marketplace as a quality product able to perform after a rigorous battery of tests simulating years of household use.
